

Wideye iSavi | IsatHub

The Wideye iSavi terminal is the first and currently the only satellite terminal developed for Inmarsat's IsatHub service.

iSavi is a lightweight, highly portable terminal and is quick and easy to set up with no training required, enabling you to get online via satellite connection within minutes. Using the I-4 satellite network, coverage is global, except for extreme polar regions.

Easy To Use

The IsatHub service is accessed from your smart device through the control App. This provides set-up assistance and gives you full control over access to the service as well as visibility of data usage from each device sharing the IsatHub connection.

The voice App enables you to use your smart device to send and receive voice calls via IsatHub's dedicated high-quality voice line, as well as text messages, even if your device is for Wi-Fi use only.

Reliable Network

IsatHub operates over the Inmarsat-4 network, with its record of 99.9 per cent satellite & ground network availability.

Features

- Dependable smartphone/tablet to satellite connectivity; voice, data & text
- Connect from anywhere with no roaming charges
- Compact and portable
- Wi-Fi connection shared with friends & colleagues within a 30 metre range
- User friendly operation via Smart Apps
- Power consumption is low and the battery can be recharged by an AC power adaptor, car charger adaptor or by solar panel
- Built in firewall
- Dust and splash resistant (IP65)

"Imagine a world where you can bring your own personal connectivity to accompany one of your most valued possessions – your smart device - wherever you go."

Inmarsat

Compatibility

The service is accessed via Control and Voice Apps (available for download on the Apple App Store and Google Play), which are downloaded onto a smartphone or tablet.

The Control App provides set-up assistance and gives full control over access to the IsatHub service as well as visibility of data usage from each device sharing the iSavi connection.

The Voice App enables you to use your smart device to make and receive voice calls via iSavi's dedicated high-quality voice line, as well as sending and receiving text messages.

Specifications

Dimensions - Terminal	180 mm (L) x 170 mm (W) x 30 mm (D)
Dimensions - Transceiver	130 mm (L) x 170 mm (W) x 30 mm (D)

Weight - Terminal	900 g
Weight - Transceiver	640 g

Duration	Standby Time: up to 24 hours Operating Time: up to 2.5 hours
-----------------	---

Battery	10.8V Li-ion, 3Ah
----------------	-------------------

Power	Input: ~100 / 240VAC Output: +18VDC, 65 watt
--------------	---

Operating Temperature	-25 °C to +55 °C - with DC supply -20 °C to +55 °C - with battery
------------------------------	--

Storage Temperature	-40 °C to +80 °C - transceiver -20 °C to +40 °C - battery -20 °C to +40 °C - transceiver with battery
----------------------------	---

Satellite Data Speed	Download up to 240/384 kbps Upload up to 240/384 kbps
-----------------------------	--

Interfaces	DC power supply on the battery unit Micro-SIM card slot Micro USB - for maintenance only Security lock slot Wi-Fi 802.11
-------------------	--

Durability	IP65 compliant UV resistant
-------------------	--------------------------------
