

Iridium GO!

Your smartphone will work anywhere on the planet.

Iridium GO!™ creates the first ever reliable global connection for voice and data communications on your smartphone for up to 5 mobile devices. No roaming charges. Just connect and stay in touch wherever you are, whenever you need, with the devices you rely on every day.

Take personal communications further

Iridium GO!™ is unlike anything the world has seen before. Powered by the world's furthest reaching network, this compact, rugged and portable unit dramatically extends the capabilities of any smartphone, laptop or tablet by creating a satellite-backed Wi-Fi hotspot – anywhere on the planet.

Transform your smartphone

Iridium GO! instantly transforms your device into a global communications powerhouse. For corporate climbers and weekend warriors, individuals, enterprises or governments, for anyone who is on the move, out of range or off the grid – by land or at sea – Iridium GO! enables reliable voice and data capabilities for your smartphone or up to 5 mobile devices.

Features

- Wireless Wi-Fi for up to 5 devices
- Data and voice capable
- Global coverage
- Applications
- Email/web optimisation app
- Social networking
- Integrated GPS location services
- IP65 rated
- SOS button with global response service included

“Iridium GO!™ is unlike anything the world has seen before. Powered by the world's furthest reaching network, this compact, rugged and portable unit creates the first ever reliable global connection for voice and data communications.”

Iridium

Simple

Iridium GO! enables satellite connectivity for your mobile devices where terrestrial networks cannot. Simply flip up the integrated antenna and the battery-powered unit connects quickly and automatically to the Iridium LEO satellite constellation to create a Wi-Fi hotspot anywhere in the world. You can easily connect and operate multiple devices within this area using the Iridium GO! application.

Versatile

Iridium GO! supports a full range of global communications, including:

- Voice calls
- Email access
- Applications
- Social networking
- Photo sharing
- SMS two-way
- GPS tracking
- SOS alert

Mobile

You can take Iridium GO! anywhere. It's small enough to fit in your pocket and, like other Iridium devices, tough enough to withstand rain, sand, dust and rough use. It can be carried, easily stowed in your backpack, or mounted in vehicles, aircraft and boats for mobile applications.

Innovative

Combining the best that both satellite and cellular phones offer, Iridium GO! is the first in a whole new category of personal satellite connectivity devices. It is also a powerful development platform optimised for Iridium partners to build applications, extending communication capabilities even further in remote locations.

Affordable

Iridium GO! is an affordable solution for truly global connectivity. It leverages and extends your existing trusted devices, is compatible with Apple® and Android™ operating systems, and eliminates roaming charges. It allows connections to be shared among multiple users and is supported by affordable plans that keep voice and data costs reasonable.

Specifications

Dimensions	119.81 mm (L) x 81.7 mm (W) x 33.44 mm (D)
-------------------	--

Weight	305 g with battery
---------------	--------------------

Duration	Standby Time: up to 15.5 hours Talk Time: up to 5.5 hours Battery Charge Time: 4 hours
-----------------	--

Included Applications	Iridium GO! (Phone, SMS, SOS) Iridium Mail (Mail, Photo, Weather)
------------------------------	--

Operating Temperature	-10 °C to +55 °C
