

AST Anker Promotion Terms

Offer's service profiles

The offer is limited to minimum service profile 2/0.5 Mbps 1:10 and a maximum services profile of 8/2 Mbps 1:5. All intermediate profiles are available with either 1:10 or 1:5 contention rates.

Order process

The customer is responsible for placing their order with one of our account manager, over the phone or via email. The contract option will be available from May 1st, 2022, until December 31st, 2022.

Once the service is in place, it is not possible to downgrade the offering to a lower profile than the commencement bandwidth.

This offer is applicable for all sectors and vessel types. Contact your KAM if you do not see this contract option during the period.

Validity

All services ordered under terms of this offer must be commissioned by January 31st, 2023.

Promotional discount

This applies to standard list prices less customer discount. Normal term discounts do not apply. Customers can move existing services to the offer as long as the revenue on the offer profile is higher than the current revenue. This applies even if a service is under an existing commitment.

Service Term and Commitment period

The Services ordered under this offer are committed for a fixed service term of:

- 5-years term with a 40% term discount off the normal price list

At the end of the committed period, the service price will automatically revert to a monthly rolling charge (20% above standard Price List), unless the customer commits the service for an additional fixed period.

Layup

No layup period is available for services ordered under this offer.
