

EXPLORER VSAT

EXPLORER GX Series for Inmarsat Global Xpress®

Cobham SATCOM is an official launch partner for new Inmarsat Global Xpress® Ka-band network. Regardless of the application, our suite of EXPLORER GX terminals will provide the reliability and functionality required to fast and effectively connect users to the Global Xpress® network. Each EXPLORER GX terminal incorporates a user friendly design which allows operators with little satellite experience to access GX services within minutes. They include an integrated iDirect Core Module and embedded web server for control, management and configuration.
