

Fleet One Coastal

Innovative solutions for fishing

Fleet One Coastal has been designed to meet the specific operational demands of the near-shore fishing industry. It delivers data and voice simultaneously through a compact antenna, with specialised pricing plans and seasonal flexibility.

Access to communications at sea helps with fishing operations such as navigation, route planning and optimisation, fish finding, catch reporting and fisheries e-reporting.

For fishermen, access to low-cost calls and email keeps them in touch with home and boosts morale. They can check the news and sports reports - all while keeping a tight control on costs.

Fleet One operates on Inmarsat's I-4 satellites, which are rigorously tested and proven as the go-to choice for commercial mariners around the world.

Safety services

Fleet One Coastal supports Inmarsat's free '505' safety service, which in an emergency directs a call straight through to a Maritime Rescue Co-ordination Centre (MRCC) - no matter how bad the weather conditions. So you can set sail knowing that your life is in safe hands.

Connectivity

The Fleet One terminal has a standard "plug and play" Ethernet connection to a computer, and with an optional wireless router can support smartphones, tablets and additional laptops - allowing multiple users to access the internet at the same time.

Unrivalled reliability

You can depend on Inmarsat, whatever the weather conditions. We provide the most robust communications links, with average network availability greater than any mobile phone provider and exceeding 99.9%.

The Fleet One terminal is specifically designed for use within the maritime environment.

The terminal is quick and easy to install, with additional Wi-Fi capability to allow access to smartphones/tablets as at home. The terminal has been tested and approved to Inmarsat's exacting standards.

Equipment

	Antenna
Diameter	27.6 cm
Height	29.2 cm
Weight	3.9 kg

Service

	Features
Data Standard IP	Up to 100kbps
Voice	4kbps AMBE+2
SMS	Standard 3G (up to 160 characters)

Applications

Fleet One supports an extensive range of applications:

Coverage

Fleet One Coastal is supported by Inmarsat's global network coverage and capability, ensuring you are never out of touch wherever you are. What's more, Fleet One is designed for fishing boats and offers tailored pricing in key fisheries grounds.

 Voice and data  Voice only

This map depicts Inmarsat's expectations of coverage, but does not represent a guarantee of service. The availability of service at the edge of coverage areas fluctuates depending on various conditions.

Cost-effective

With Fleet One, you can have performance and flexibility at affordable prices with a choice of airtime pricing to suit your needs. You don't have to commit to a lengthy contract and you can suspend use outside of fishing seasons. Alternatively, competitive rates are available on a pre-paid voucher with no commitment required. It makes global voice and regional data easily accessible, enabling you to achieve greater operational efficiency and improve crew welfare whilst keeping the costs of communications affordable.

Easy installation

The Fleet One terminal can be quickly and easily installed and set up on your boat.

Free mobile app

Track your location relative to the Fleet One data coverage regions on your smartphone and tablet devices.

- > Map-view showing data coverage region and current location
- > Audible and visible alerts when inside, leaving, or outside the data coverage region
- > Customisable settings for triggering alerts
- > Available in 8 languages

The app is available on Google Play and Apple App Store.

How to buy

Fleet One Coastal is available from Inmarsat and our service providers around the world. Visit our website to find the right choice for you.
