

Iridium Extreme | 9575

A new force in mobile communications has arrived. It is the first phone to combine location awareness, SOS & market leading toughness. No other satellite phone combines so much functionality.

The Iridium Extreme is engineered with more features than ever before, and more accessories than any other satellite phone on the market, providing people with even more ways to connect.

Overview

The Iridium Extreme is built with the same reliable voice and data capability that users have come to trust from Iridium, the only truly global satellite communications company in the world.

With fully integrated, customisable GPS, online tracking and emergency SOS with notification, the Extreme is engineered with more features than ever before.

The Iridium Extreme is engineered to support harsh conditions, and manufactured to an impressive IP65.

Features

- GPS enabled location-based services
- Online tracking
- Customised solutions
- Certified S.E.N.D by Search & Rescue regulating body (RTCM)
- Reliable two-way global coverage
- Tough military-grade designed satellite handset

“Iridium Extreme is the first satellite phone to offer the fully integrated services of customisable GPS, online tracking & emergency SOS with notification.”

Iridium

Compatible with AST's IRIS data and asset management platform.

Integrated Tracking

Through certified online portals, Iridium Extreme™ offers an open development platform for custom location-based solutions providing real time tracking to increase business efficiencies, improve military & emergency response, track critical assets or simply keep family & friends up-to-date.

- Access users through on-demand tracking
- Monitor employees en route through position updates & geo-fencing
- Use scheduled check-ins to instruct daily missions
- Let family & friends track your location online through social network updates
- Ensure safety of remote personnel
- Disable tracking on demand for stealth operations
- Iridium Extreme allows you to send your position in an SMS so it may be viewed on Google Maps

Integrated SOS

Iridium Extreme™ is the first phone ever built with a programmable, GPS-enabled, one-touch SOS button. A certified Satellite Emergency Notification Device (SEND), Iridium Extreme™ will notify help in an emergency, then notify you when help is on the way.

- Customise your SOS contact
- Send a one-touch distress message
- Notify recipient of your exact location
- Confirm receipt of your message
